“Learning is not attained by chance, it must be sought for with ardor and attended to with diligence.”

We at Delhi Public School Vapi believe in the all round development of our students. The Primary students were involved in several engaging activities to instill a sense of team spirit and collaboration in them during the active months of August and September.

The students of grades III to VII were deeply engrossed in subject-related activities like designing a comic strips, role plays, poetry writing also fun with reading and speaking were conducted. The children showcased their acquaintance and consciousness of the language in Hindi, Gujarati, and English, by creating multiple writing pieces. Students performed in an extemporaneous manner presenting their excellent speaking skills.

Mathematics was meticulously taught through multiple lab activities. It gave them a chance to explore their new abilities and learn new things.

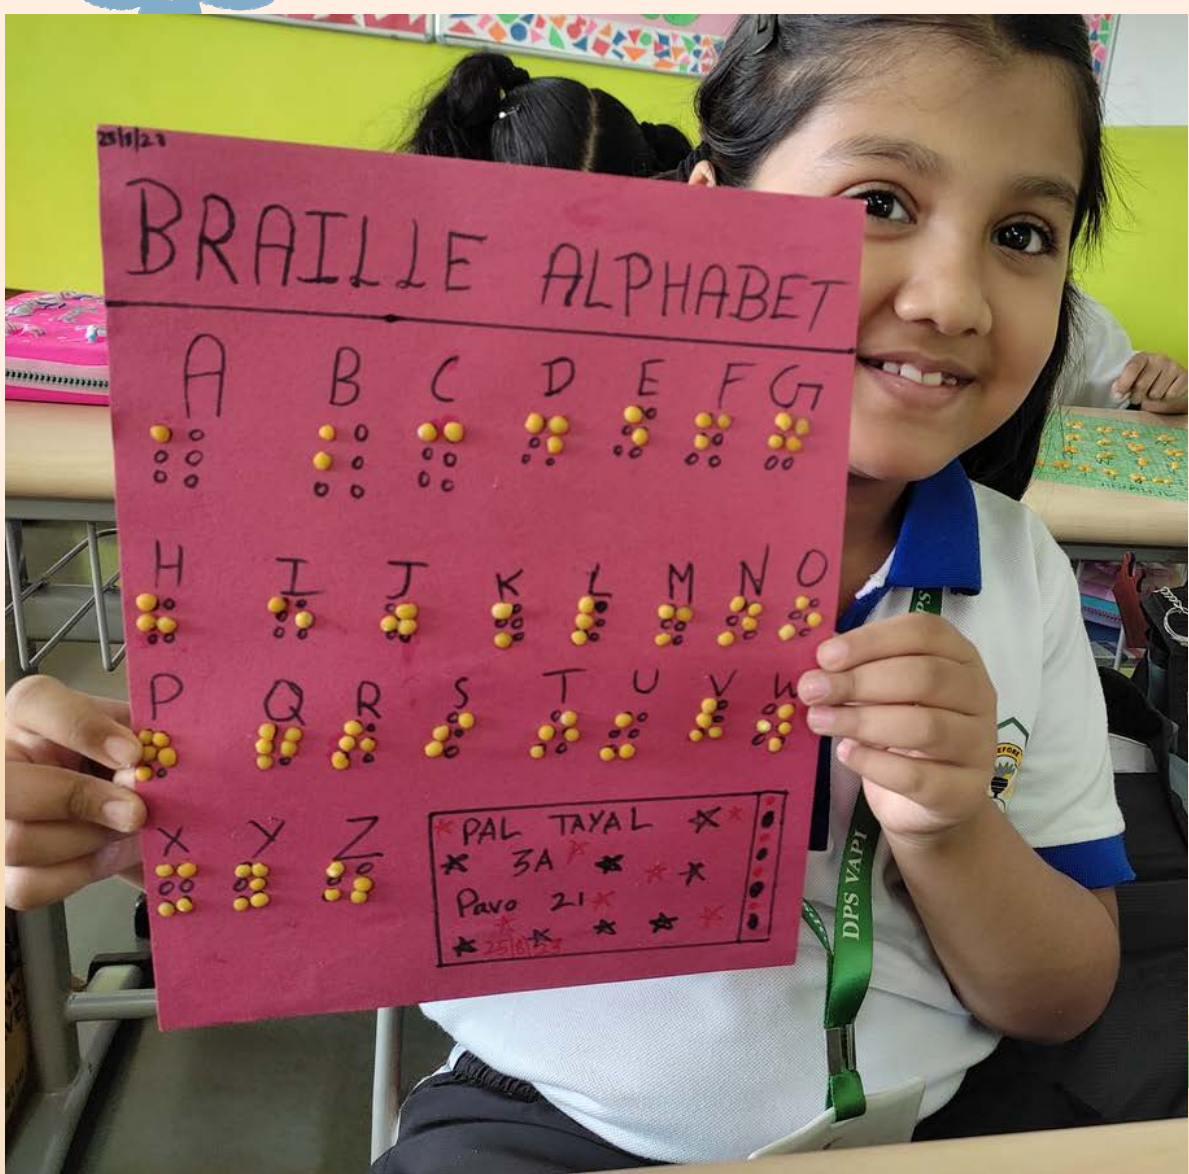

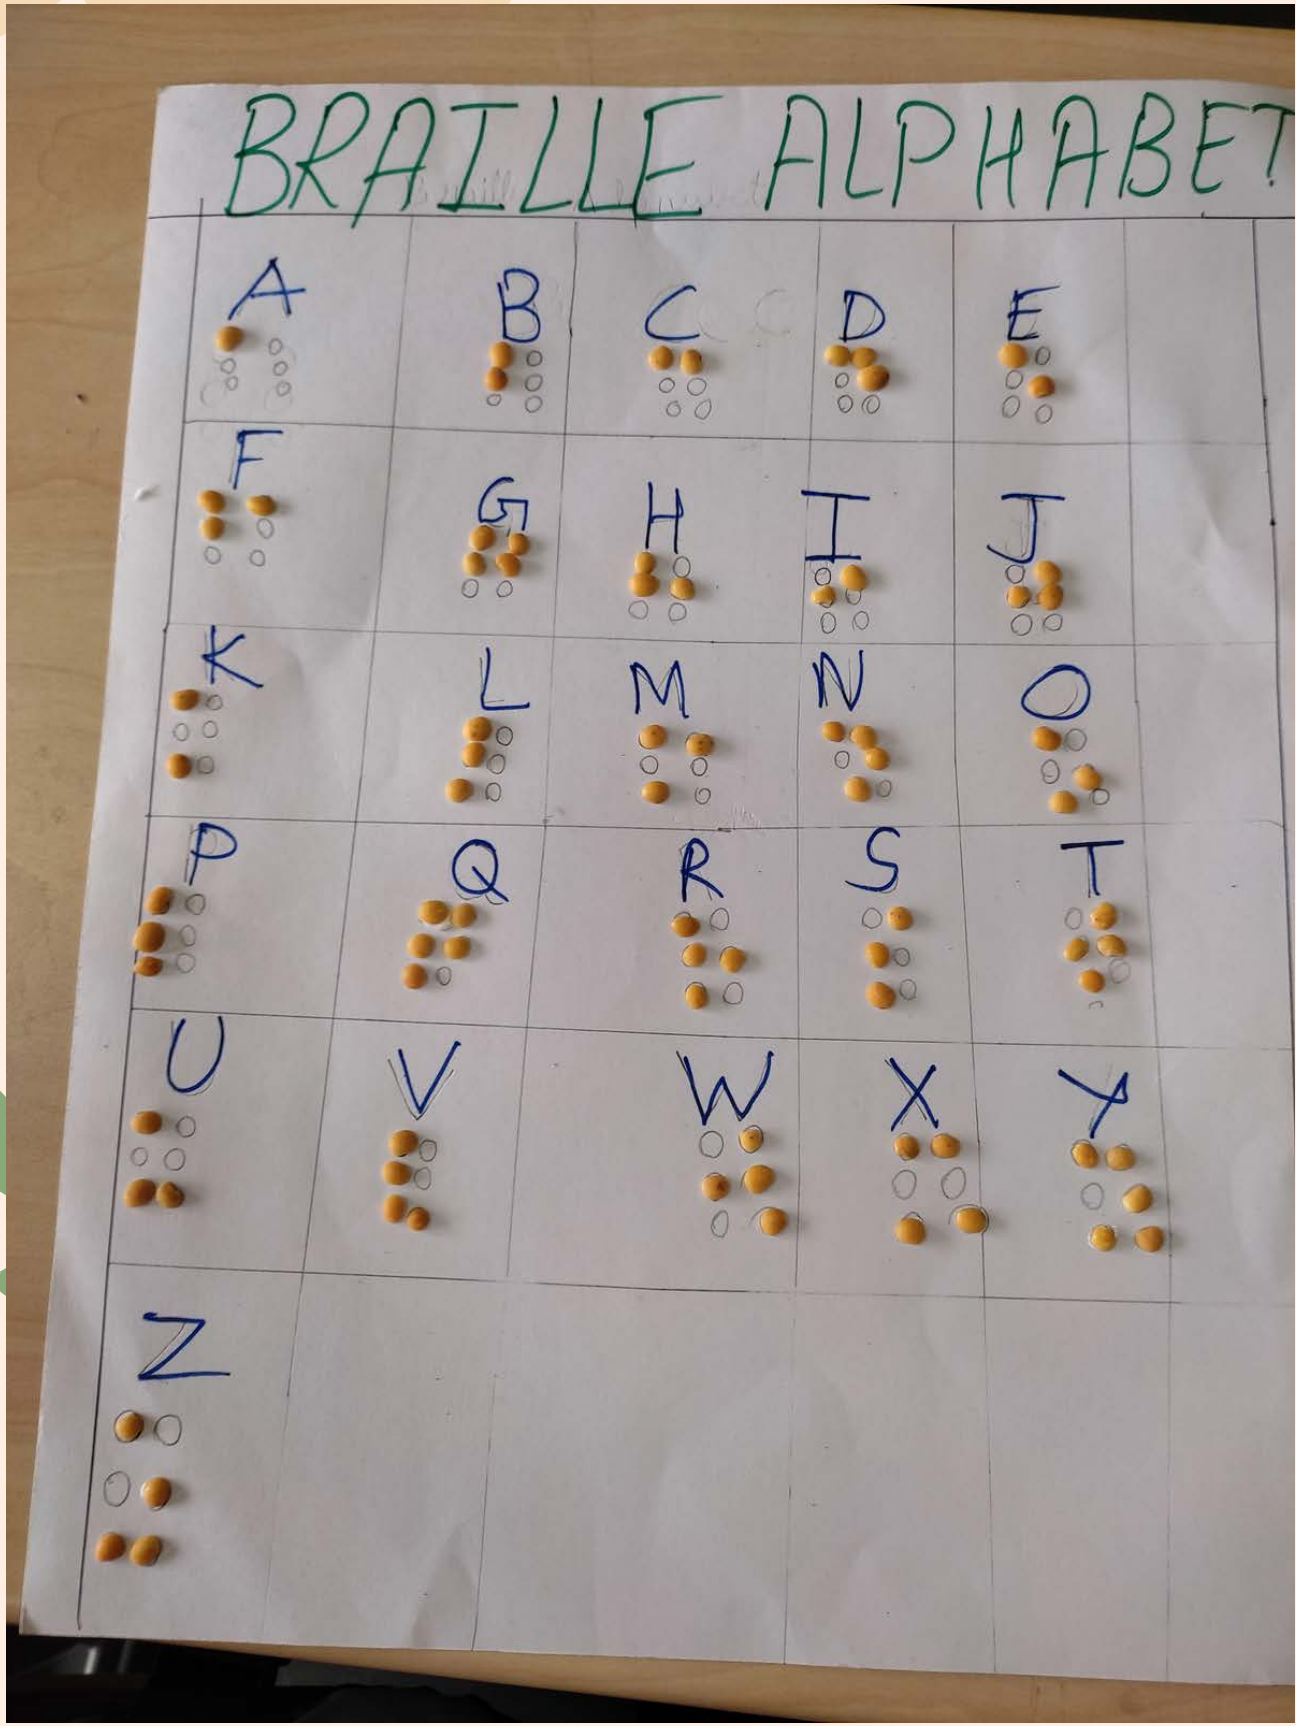

The ideal way to study Science and Social Science is by experimenting and practicing it. Our students acquired more knowledge of their authentic environment by getting involved in varied hands-on activities. Practical knowledge was imparted through self-created models.

Subject-related activities are an initiative that allows them to actively work as individuals as well as in groups. The students of classes III to VII were involved in a lot of exuberant and engaging activities which will undoubtedly help them to be better and more responsible citizens.
